

INNOVATIVE SOLUTIONS for shower, bath and toilet

ABOUT US

- For over a decade, we have been setting standards in rehabilitation technology with our adhesive technology. Our focus is on developing and manufacturing innovative products that improve the lives of our customers by promoting their independence and enhancing safety.
- With more than 13 years of experience in applying our adhesive technology, we have established ourselves as a leading provider in the industry. Our products are distributed by around 1000 dealers across Germany and have already helped over 200,000 people improve their quality of life.
- Our products are manufactured with the utmost care and precision because quality is our top priority. As a proud „Made in Germany“ company, we source our materials from suppliers in our immediate vicinity to ensure that our products meet the highest standards.
- At delficare, we are committed to providing our customers with first-class solutions that ensure safety, comfort and reliability. Our dedication to continuous innovation and excellent service is reflected in every product we manufacture.
- Discover our product range and learn how we help people lead active and fulfilling lives. Welcome to delficare – your trusted partner for rehabilitation technology „Made in Germany“.

MISSION

Through the development of innovative aids, we aim to maintain the quality of life and independence of elderly and physically impaired individuals.

VISION

Our vision is to provide everyone with the opportunity to preserve their independence in their own home for as long as possible.

VALUES

Integrity

We always act honestly and transparently and adhere to high ethical standards. Our decisions and actions are characterized by trust and respect.

Respect

Respectful interaction with employees, customers and partners is important to us. We value each individual and promote a culture of mutual respect and appreciation.

Innovation

Through continuous innovation and creative problem-solving, we set new standards in our industry. We foster a culture of change and continuous improvement.

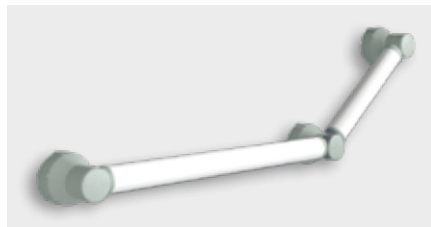

Flexible and Proven Grab Bar System

varioplus

The varioplus grab bar system impresses with its versatility and adaptability. It consists of grab bar tubes and supports that can either be used as a simple grab bar or combined in various ways to meet the user's needs. Thanks to the use of high-quality materials, the system meets the highest standards of load-bearing capacity and cleaning possibilities. The maximum load capacity is 100 kg with a recommended user weight of up to 130 kg.

Natural Warmth and Durability

varioplus kebo

The varioplus kebo grab bar brings natural warmth and exquisite aesthetics to your bathroom. Made from sustainable Nordic pine wood treated with a special technology, this grab bar offers exceptional durability and resistance. Even in constantly damp environments, the wood remains stable, does not swell, and resists mold growth, making it an ideal choice for the sanitary area.

PRODUCT FEATURES:

- **High-quality Nordic pine wood:**
Sustainable and environmentally friendly
- **Durability:**
Excellent durability even in damp environments
- **Various lengths:**
Available in two lengths for a perfect fit

PRODUCT FEATURES:

- **Non-slip grip surfaces:**
Provide a secure hold even when wet
- **Easily height-adjustable:**
Multiple levels allow for easy adjustment of the handle height
- **Space-saving retractable:**
Retractable under the bathtub rim to avoid disturbing roommates in everyday life
- **Easy to clean:** Simple cleaning for lasting hygiene
- **Mounted on the outside of the bathtub:** No impairment when using the bathtub

Natural Warmth and Durability

varioporto

The varioporto shower folding seat is, like our other products, simply mounted on the shower wall using our adhesive adapters. We are proud to be the only provider offering shower folding seats with adhesive technology. This method prevents damage to the tiles and allows for residue-free removal. The seat, adjustable in height before installation, can be folded up when not in use, saving space in your shower. Thanks to the high-quality materials and robust construction, the seat is particularly durable and reliable. The maximum load capacity is 130 kg.

PRODUCT FEATURES:

- **Easy installation:**
No drilling required,
thus no damage to tiles
- **Secure hold:**
Provides stable support up
to a maximum load of 130 kg
- **Space-saving design:**
Folding function provides
more freedom of movement
in the shower
- **Comfort and flexibility:**
Height adjustable to meet
individual needs
- **Aesthetic integration:**
Modern design that harmon-
iously fits into any bathroom

Luxury and Safety in Perfection

varioporto XXL

The varioporto XXL shower folding seat offers all the advantages of our innovative varioporto shower folding seat but with an exceptionally high load capacity of up to 250 kg. This makes it ideal for users who need additional support and stability. Additionally, the seat features a larger seating area and a practical hygiene cutout for added comfort and hygiene. Like all our products, the varioporto XXL is mounted on the shower wall using adhesive adapters. This method prevents damage to the tiles and allows for residue-free removal.

varioporto XXL

varioporto XXL
Large seat for more comfort and safety

PRODUCT FEATURES:

- **Extremely high load capacity:**
Stable support up to a maximum load of 250 kg
- **Space-saving design:**
Folding function provides more freedom of movement in the shower
- **Larger seating area:**
Offers additional comfort and safety
- **Hygiene cutout:**
Increases hygiene comfort
- **Robust construction:**
High-quality materials ensure durability and reliability

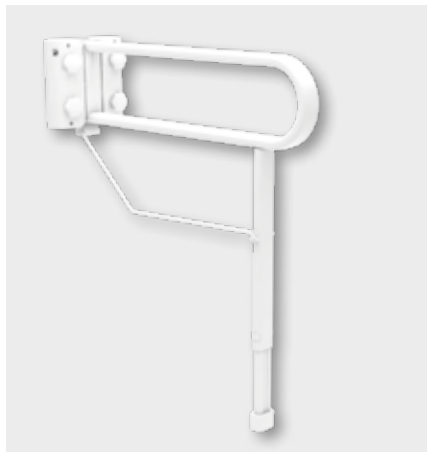

Swing Support Handle: Innovative, Space-Saving, and Safe

variopresa

The variopresa swing support handle sets new standards as the first and only swingable support handle for adhesive mounting. With its particularly wide grip surface, it makes sitting down and standing up from the toilet significantly easier, providing more comfort and safety. When not in use, the handle can be folded up to save space, allowing for unhindered use of the toilet.

PRODUCT FEATURES:

- **Secure and stable support:**
Provides reliable assistance when sitting down and standing up
- **Individually adjustable height:**
Adjustable to different user needs
- **High load capacity:**
Stable up to 130 kg, suitable for higher user weights
- **Space-saving fold-up:**
Allows unhindered use of the toilet when not in use
- **Easy installation:**
Double adhesive technology for quick and secure mounting without drilling

variopresa

Universal Support Handle: Versatility and Safety for Every Need

variopunta

The variopunta universal support handle impresses with its exceptional versatility. Whether next to the sink, toilet, in the shower, or at the bathtub – variopunta offers the necessary safety for every situation with its long, protruding grip surface. Thanks to the innovative double adhesive technology, installation is safe and quick, even on tiles with grout lines. With a maximum load capacity of 100 kg, the handle offers stable support.

variopunta universal support handle 20cm

variopunta universal support handle 35cm

variopunta universal support handle 50cm

PRODUCT FEATURES:

- **Available in three sizes:**
Flexibility for various applications
- **Secure and stable support:**
Provides reliable assistance in any situation
- **Versatile use:**
Ideal for sinks, toilets, showers and bathtubs
- **Easy and secure installation:**
Double adhesive technology for quick mounting without drilling

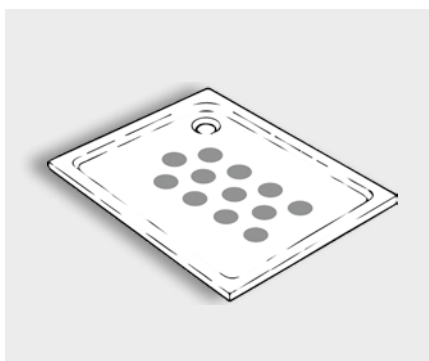

Non-Slip Protection for Shower and Bath

variosafe

The variosafe non-slip protection provides safety and comfort in your shower or bathtub. The self-adhesive pads are quickly and easily applied to the floor and can be just as easily removed. Thanks to their rough surface, they effectively prevent slipping in a wet shower or bathtub, even when using soap. variosafe is suitable for acrylic, enamel, and ceramic tubs.

PRODUCT FEATURES:

- **Delivery includes:**
10 pads
- **Quick application:**
Easy installation with self-adhesive pads
- **Easily removable:**
Residue-free removal possible
- **Easy to clean:**
Easy to clean and no breeding ground for mold
- **Versatile use:**
Suitable for acrylic, enamel, and ceramic tubs

variosafe (anti-slip protection)
10 individual pads for gluing

variosafe (anti-slip protection)

We have developed an innovative adhesive system with which all our wall-mounted products are equipped.

The advantages of our adhesive technology are obvious:

- Time-saving installation without dirt and noise
- No holes left behind after dismantling the products
- No damage caused by drilling into water or power lines
- Residue-free disassembly

We have also equipped our varioporto, variopresa and variopunta products with our innovative double bonding technology. This makes it possible to check immediately whether the substrate is suitable and has been carefully prepared for bonding. The products can easily be reused in a different location using new adhesive adapters. Subject to technical changes.

ASSEMBLY

Cleaning the substrate

Removing the protective film

Pressing on / fixing

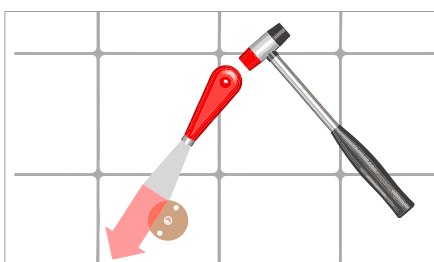

Pour in adhesive

Drying 24h

DISASSEMBLY

Carefully remove with hammer and spatula

Alternative: Turn off

Remove adhesive residue
